DETAILED ACTION

Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-14, drawn to game system with audio display and separated wager and prize unit, classified in class 463, subclass 25.
 - II. Claims 15-26, drawn to game system with build in database to track user's account and serially connected displays, classified in class 463, subclass 46.
 - III. Claims 27-32, drawn to displays arrangement, classified in class D14, subclass 373.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions Group I, Group II and Group III are related as combination and subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombinations as claimed because the game system of the combination Group I does not require a specific display connection of the subcombination Group II or a specific displays arrangement of the subcombination Group III. The subcombinations have separate utility such as a compact game

Page 3

Art Unit: 3713

system with build in user's account database and multiple serial connected displays or a

concatenated display system.

Because these inventions are distinct for the reasons given above and the search required 3.

for Group I is not required for Groups II and III, restriction for examination purposes as indicated

is proper.

Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37

CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner 4.

should be directed to Kim Nguyen whose telephone number is (703) 308-7915. The examiner can

normally be reached on Tuesday-Friday from 8:00AM to 4:30PM ET.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor,

Valencia Martin-Wallace, can be reached on (703) 308-4119. The fax phone number for this

Group is (703) 308-7768.

Any inquiry of a general nature or relating to the status of this application or proceeding

should be directed to the Group receptionist whose telephone number is (703) 308-1148.
